Re: Request for Agreement between the departments of Faculty of Theology of Dicle University and Arabic and Islamic Studies of Universidad De Cadiz within the scope of Erasmus

Dear colleagues,

Greetings from Cadiz! We hope this message finds you well.

We are getting in touch with you in order to continue with the issue of our new collaboration. We apologize for the delay in sending this proposal, but as you surely know we have had to prioritize the renewal of the existing IIAs in the EWP environment.

I took the liberty of sending you a digital proposal via EWP, in case you are already managing your IIAs there; otherwise, please let me know and I will send you a paper draft for you to fill in.

I remain at your disposal for any further information you might need.

Best regards,
Rosa

Hi **Torres**,

I'm writing you via Antonio Ricardo Morales Nadal from Universidad de Cadiz.

I am the Erasmus Coordinator of Dicle University Faculty of Theology.

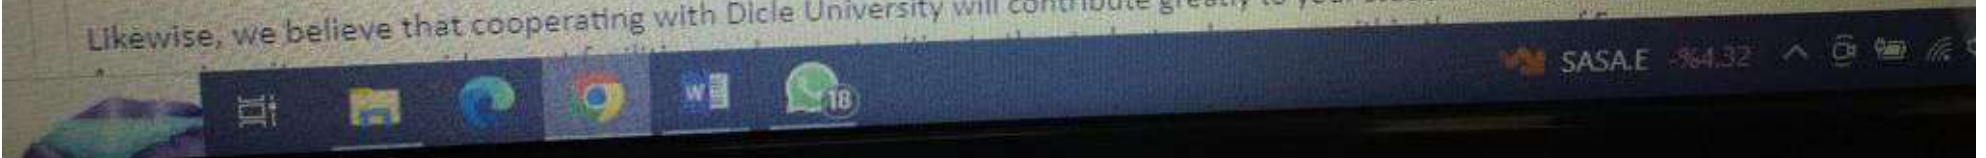

My faculty is one of the most significant theology faculties of the South East Anatolia region, which provides education to approximately 4500 students. The international student density is quite high. 30% of our education curriculum is in Arabic and we have a one-year Arabic preparatory class.

However, since the faculties of theology in Europe generally have curricula for Christian theology, the number of universities we cooperate with is unfortunately few.

We knew that Cadiz has an Arabic and Islamic Studies department thanks to Ricardo's participation in our university Staff Week.

We believe that it will be a great opportunity for us to cooperate with you within the scope of Erasmus.

Likewise, we believe that cooperating with Dicle University will contribute greatly to your students and staff.

DELL
